

Insert here the title of your work (Centered, max 2 lines, bold characters, Times 14pt. Everything else must be Times 12pt.)

First author⁽¹⁾, Second Author⁽¹⁾, Third author⁽²⁾, Other authors⁽³⁾, and Last author^{(1),(2)}

⁽¹⁾*Name of institution number 1, insert address in italic*

⁽²⁾*Name of institution number 2, insert address in italic*

⁽³⁾*Name of institution number 3, insert address in italic*

(in this example, First and Second belong to the same Institution, Third and Others to different ones, and Last to both Institutions 1 and 2).

* presenting author, e-mail: author@uni.edu

Insert your abstract here. The whole abstract must be written using Times New Roman characters, 12 pt, except for special characters (typically, Greek letters, symbols, equations, etc.). The abstract cannot exceed one A4 page, including references and figures. Only a single figure can be included, but multiple panels are accepted. Equations can be inserted either within the text line ($a = \int f(x) dx$) or in separate lines. In this case, equations must be centered, numbered, and quoted as Eq. (1).

$$a = \int f(x) dx \quad , (1)$$

The Figure should also be centered, and the caption should appear right below, using italic characters. Here is a possible example.

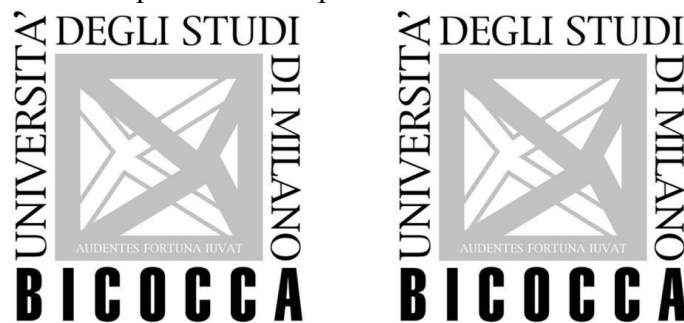

Figure. Left: logo of the University of Milano-Bicocca. Right: once again, the logo of the University of Milano-Bicocca.

Please note that the abstract book will be printed and distributed to participants in black and white. So, gray-scale figures are preferred. In case you submit color figures, make sure that both the figure and the caption can be understood also when printed in black and white. Finally, references must be quoted using square brackets [1]. For journals, the volume must be reported using boldface (see Refs. [1] or [2]).
